VISIT 1: Young Heroes Academy

Name of school	Jonge Helden Academie (Young Heroes Academy)
Address of school	Arsenaalgas 8 6511 PE Nijmegen
Short presentation of the school	<p>The Jonge Helden Academie offers programs for young people in the ages of 16 to 25 that want to be supported in discovering their strengths and abilities in relation to education, employment, and entrepreneurship. Sometimes they dropped out of regular education, but also young people that wish to start their own business and are in need of a role model that can discuss the steps needed to start as an entrepreneur are very welcome.</p> <p>By exploring talents and making the participants aware of what is needed to flourish, but also acknowledging what is not suitable or possible in their personal situation, a more detailed insight in their strengths and possibilities arises.</p> <p>In our programs participants discover their unique potential and learn to use these talents and new discovered skills in their best step forward in education, employment and entrepreneurship.</p> <p>www.jongeheldenacademie.nl</p>

Maximum number Of participants allowed by the school	30
School visit program	<p>During this visit we will offer our guest a program together with our participants, because we strongly believe in <i>practice what you preach</i> and in involving all parties in presenting our initiative. The visit offers e.g.: the opportunity to exchange experiences with participants on topics such as talent development, career guidance, learning and motivation</p> <p>Thereby, we our guest will briefly experience what it feels like to participate in our programs by participating in one or two of the methods that are used in our programs.</p>

VISIT 2: KGC

Name of school	Karel de Grote College
Address of school	Wilhelminasingel 15, 6524 AJ Nijmegen, The Netherlands
Short presentation of the school	<p>The Karel de Grote College is secondary school for Waldorf Education. In Waldorf education, the learning process is essentially threefold, engaging head, heart, and hands—or thinking, feeling, and doing. With this method we try to develop the whole human being and not just the intellectual capacities. Besides the cognitive subjects, we offer a range of movement and artistic subjects like eurythmy, woodwork, needlework, drama, painting and drawing, music, choir singing etc. The development of our students into independently thinking human beings is the main goal of our education. We try to inspire life-long learning in all students and to enable them to fully develop their unique capacities. Our school has around 800 students and 80 teachers and we are located in the center of the city of Nijmegen.</p>
