### VISIT 1: Citadel Secondary Education - the teacher as coach.

<b>Name of school</b>	<b>Citadel College</b>
<b>Address of school</b>	Dijkstraat 6, Nijmegen-Lent
<b>Short presentation of the school</b>	<p>Citadel secondary education is the youngest secondary school in the city of Nijmegen and was started 15 years ago. Located in the middle of a new developed suburb, the school is surrounded by schools for primary education that execute several innovative educational approaches. For instance, leaving the system of age-based groups and working with (individual) learning plans instead. The Citadel chose a didactical approach that fits the way children are used to learn in this primary schools, to reassure a smooth transfer from primary to secondary education. The programs 'On track' (secondary education on a mediate level that prepares pupils for vocational education) and 'Lumen' (secondary education that prepares for higher vocational education and university) are developed to fit the learning styles and needs of a total of 1550 e pupils, aged between 12 and 18 years. One of the key factors of the approach is the more coach-based approach of the teachers that adds value to the specific subject of expertise they teach.</p>

## VISIT 2: Jenaplanschool and children's centre De Vuurvogel

Name of school	De Vuurvogel, Jenaplan School and Child Center
Address of school	Schoolstraat 23a, Malden ( in het Kroonwijkpark)
Short presentation of the school	<p>Jenaplan primary school De Vuurvogel is an integrated children's center in the heart of the municipality of Malden. Our new school is situated in a specially designed natural park.</p> <p>Our goal is to offer an integral developmental environment for around 300 children from 0 up to 14 years old.</p> <p>The proven and trusted Jenaplan concept provides a excellent base to organize our children's center.</p> <p>The basis for this educational concept revolves around the balance between three fundamental educational insights and principles;</p> <ol style="list-style-type: none"> <li>1. People function/learn better with and from one another in small family groups. That's how we organize socialization and subjectification amongst others.</li> <li>2. Contemporary competencies are essential for children to find a place that fits them in our society. That's why we concentrate on developing 21<sup>st</sup> century skills in our program.</li> <li>3. Skills and knowledge have to become meaningful to 'stick', that's why we offer our curriculum in themes and projects.</li> </ol> <p>We will be delighted to explain to you on how this can be experienced in our children's center. (45 minutes to one hour, and yes; questions are welcome!) A tour of the school and a visit of our classes will be part of your learning experience!</p> <p>As we are all about learning, you will be invited to leave comments, tips, and tops in our guestbook.</p>
