

## SCHOOL VISIT PACKAGE 3: Primary Education ‘Equal chances lab’- research participant and Intermediate vocational education

By public transport and by foot (1km walking), lunch included

### VISIT 1: De Lanteerne (mainstream Dutch and bilingual Dutch/English Jenaplan education)

<b>Name of school</b>	De Lanteerne
<b>Address of school</b>	Henry Dunantstraat 8, 6543 KR, Nijmegen
<b>Short presentation of the school</b>	<p>At our school, children learn how to live together, how to be a community. We work, play, talk and celebrate together. We value heterogeneity within our school and groups. Our groups (we call them “tribe groups” consist of 3 years: kindergarden (4-6 year-olds), middle school groups (7-9 year-olds) and upper school groups (10-12 year-olds). Children will grow up with the understanding of how we help each other, and how we let others help us.</p> <p>Social and natural science are the heart of our education. We integrate content and language. We teach children to explore their own research questions and share their findings with a broader audience like their classmates or even the rest of the school.</p>
<b>Picture of the school</b>	

**Maximum number of participants allowed by the school**

25

**School visit program**

## VISIT 2: YUVERTA

<b>Name of school</b>	<b>Yuverta mbo Nijmegen</b>
<b>Address of school</b>	<b>Energieweg 19, 6541 CW Nijmegen</b>

<p><b>Short presentation of the school</b></p>	<p>Yuverta mbo Nijmegen is a school for intermediate vocational education that is specialized in education future employee in the 'nature and animal' workforce. Students are being trained as e.g. para-veterinary, animal care taker, coach at a care farm or for executing projects on sustainability and environment. Our school distinguishes itself from other vocational education by a small-scale setup where there is close contact between teachers and students. Students are given the opportunity to develop their own route towards becoming a professional and we support them with a team that is highly pedagogical equipped to help them succeed.</p>
<p><b>Picture of the school</b></p>	
<p><b>Maximum number of participants allowed by the school</b></p>	<p><b>20</b></p>
<p><b>School visit program</b></p>	<p>We are looking forward to welcome the EAPRIL-guest and at first will introduce the system of intermediate vocational education as is known in the Netherlands. After that, we offer you a tour around our school and its surroundings so you can view how education and practice is integrated in our daily school routine. We will finish the school visit with a conversation with students and teachers of Yuverta, where you can ask all you want to know about their experiences with our school.</p>
