WHAT IS EAPRIL?

The European Association for Practitioner Research on Improving Learning (EAPRIL) promotes practice-based research on learning issues. EAPRIL is unique in bringing together those interested in the crossroads between research and practice but also between education and professional learning.

Since 2006, EAPRIL organises Annual Conferences that bring together more than 450 delegates coming from Europe and overseas. The conference public is very diverse, going from researchers to practitioners and from educators to companies.

In 2020, the Conference will be held in the beautiful city of Kufstein in Austria.
WHY EAPRIL?

It's a **win-win-situation**!

**Companies such as yours would be extremely interesting for our delegates.** EAPRIL doesn't only want to provide a platform for the dissemination of research but we also want to introduce our delegates to the **latest developments in research methodology and instruments**, as well as **new learning tools** for practice.

As a company supporting EAPRIL there are different promotion opportunities* available that give you the possibility to **showcase your product** in the presence of a very interesting target group and a chance to network with **educational experts**.

*More detailed information on the different promotion opportunities can be found on the next page.*
