

BEST PRACTICE-BASED RESEARCH AWARD – PHASE 1

General abstract (max. 200 words) which should contain the following:

Give a short description of your practice-based research project.

Extended summary (max. 1000 words) which should give an answer to the following questions:

1. How does the project respond to a real need in the field?
2. Describe the main focus of your practice-based research including theoretical framework, research questions, methods and results.
3. Describe the contribution to the development of knowledge.
4. Describe the impact of the project for the development of practice (including product, websites, tools, et cetera).
5. Describe how and whether the collaboration between practitioners and researchers contributes to the aims of the practice-based research.
6. What are the three main lessons learned during the project?
7. What is the sustainability of the practice-based research project?
